WORK EXPERIENCE

UX Designer – SAP

Nov 2025 – Present | Vancouver, BC (internship)

- Unified admin settings across **SAC, DSP, and BDC** into a single consistent pattern, collaborating with designers, developers, and PMs.
- Designed and documented **5+ reusable components** for the design system, including usage guidelines to support consistent implementation across teams.
- Contributed to an AI workflow workshop for designers by developing educational guides and tutorial videos to support adoption across the design org.

UX Designer – Nokia

Jan 2025 – Aug 2025 | Ottawa, ON (co-op)

- Redesigning the Frostbuster tool used by NSP developers and reviewers, removing **12 steps and reducing clicks by 35%** across the request and approval flow.
- Conducted a UX-Lite survey of **33 developers and 3 user interviews** to surface pain points, translating findings into a new flow validated through developer and reviewer workshops.
- Designed and documented UI components to improve data management efficiency, ensuring consistency and providing UX-handoff for development.

Product Designer – Invoke Co.

May 2024 – Aug 2024 | Vancouver, BC (co-op)

- Designed the mobile version of Dolan Toyota's car rental reservation system, adapting an existing desktop flow across **8 screens** for iOS and Android.
- Redesigning Toyota's internal fleet management system covering **9 flows across 2 features**, presenting iterations directly to Toyota stakeholders in bi-weekly client reviews.
- Conducted a heuristic evaluation of Kevala's scheduling system across **3 portals and 26 flows**, documenting **64 usability violations** across UX, UI, and accessibility, and delivering **6 prioritized recommendations** to improve consistency and reduce cognitive load.

Product Designer – The Friendly Pharmacists

Jan 2024 – Aug 2024 | Vancouver, BC

- Collaborated with pharmacists from the University of British Columbia (UBC) to supplement counselling efforts, providing patients with accessible content for quick reference.
